

Why should you protect your child with the Polish National Alliance?

1. Affordability

The premium amounts are low and will remain level throughout the 20-year paying period. The younger the child, the lower the payment will be.

2. Cash Value

Permanent life insurance builds cash value. The cash component allows you to borrow the money that have been built up.

3. Future Insurability

Permanent life insurance provides a lifetime of protection. If your child develops a disability or chronic illness later in life, it

will become hard and more costly, if not impossible, to obtain life insurance.

4. PNA Membership

Purchasing a life insurance certificate with the PNA provides the opportunities to participate in Membership programs such as scholarships, sports programs, contests and subsidies. These benefits separate us from commercial life insurance carriers and they are without any cost to the Member.

5. Gift

If you purchase your certificate by the end of December 2019, your child will then receive a special gift from the Polish National Alliance.
